PROFESSIONAL SUMMARY

Mobile Application Developer building cross-platform mobile apps with **React Native CLI, Expo, Redux, and REST APIs**. Delivers 1-2 polished features per release for booking, productivity, marketplace, and wellness products, including apps published on the **Google Play Store**. Bridges frontend UI, backend integration, and Android tuning to support maintainable mobile experiences.

EXPERIENCE

Tech Adviser Pvt Ltd - React Native Developer

Karachi

01/2024 - 05/2026

- Design, develop, and deploy cross-platform mobile applications using Expo and React Native CLI across the full development lifecycle.
- Key Projects:
 - Doctor Appointment App (Expo): Booking platform for patients to find doctors, schedule visits, manage profiles, and receive notifications.
 - Time Management App (CLI): Productivity app with task planning, reminders, activity analytics, and custom themes.
 - PakThekedar (CLI): Construction and contractor marketplace, published on the Google Play Store.
 - ReveloVox - Stress Checker: Health and wellness app, published on the Google Play Store.
 - See Application (Kotlin): Native Android app improving accessibility by analyzing eye prescriptions and adjusting font size, brightness, and visual settings.
- Responsibilities:
 - Building scalable, high-performance mobile apps with clean, maintainable code.
 - Collaborating with UI/UX designers and backend teams to deliver polished user experiences.
 - Integrating REST APIs and managing application state with Redux.
 - Testing, debugging, and optimizing performance across Android and iOS.

Self-Employed - Freelance Mobile App Developer

Karachi

03/2023 - 12/2023
